EMBRACE THE OLD WAYS

What is FREAKSCENE?

"Freakscene is a rapidly growing DIY community seeking to bring musicians, artists, promoters, and fans together to bypass the exploitative social media and music streaming companies."

Essentially a Reddit for the punk mentality, the website is grouped by scenes from throughout the U.S., allowing folks to connect with others locally, but also network with likeminded individuals throughout the country.

Created in 2024
by Neek & Corbin

Whether your sharing music, promoting a show, booking a tour, putting together a zine, or just seeking to find others into the same stuff as you, Freakscene is helping make it possible without lining the pockets of right-wing tech oligarchs."

- Brett Noble, Two Two One Press

New features are being added all the time!

Freakscene is a community space for the DIY scene // music, art, zines,

From the website:

performance, whatever else people make outside the capitalist algorithms.

If it's underground, off-grid, or self-made, it belongs here.
