What is FREAKSCENE?

"Freakscene is a rapidly growing DIY community seeking to bring musicians, artists, promoters, and fans together to bypass the exploitative social media and music streaming companies.

Created in 2024
by Neek & Corbin

Essentially a Reddit for the punk mentality, the website is grouped by scenes from throughout the U.S., allowing folks to connect with others locally, but also network with likeminded individuals throughout the country.

DODIY.ORG

A DIY RESOURCE HUB
FOR TOURING MUSICIANS,
PERFORMERS, ZINESTERS
& OTHER WEIRDOS

Whether your sharing music, promoting a show, booking a tour, putting together a zine, or just seeking to find others into the same stuff as you, Freakscene is helping make it possible without lining the pockets of right-wing tech oligarchs."

From the website:

Freakscene is a community space for
the DIY scene // music, art, zines,

performance, whatever else people
make outside the capitalist algorithms.

If it's underground, off-grid, or self-
made, it belongs here.
